This section, Information Systems (IS), involves the planning, documentation, security/confidentiality and production of the necessary reports relating to program operations through the utilization of automated data processing services at the State and local level.

- A. System Planning and Operation 246.4(a)(12): describe the procedures for planning, approving and monitoring ADP goods and services, and any interaction with other statewide automated data processing operations which may take place including system costs for services and security.
- **B.** Participant Characteristics Minimum Data Set (MDS) 246.4(a)(11)(i): All State agencies currently collect all required Minimum Data Set items. Please confirm that your State agency will continue to do so. For the Supplemental Data Set, which varies by the capacity of State systems, please describe the data items which are reported electronically regarding participant characteristics and whether these items are currently being collected or if there are plans to collect them in the future.
- C. WIC Systems Functional Requirements Checklist 246.4(a)(8); (9); (11); (12); (13); (14); (15) and (18): describe those functions which are currently incorporated into the IS or which are planned to be incorporated in the future.

III. INFORMATION SYSTEM (IS)A. System Planning and Operation

A. SYSTEM PLANNING AND OPERATION

1.	ADP S	System Planning				
a.	The WIC State agency is included in the following comprehensive Statewide ADP plan(s):					
		Title IVa (TANF) Title V (MCH) No		Title XIX (Medicaid) Food Stamp Program Other (specify):		
	If no, the WIC State agency has its own plan for ADP utilization					
	\boxtimes	Yes		No		
b.	The State agency has written procedures for monitoring and approving local agency requests for ADP goods and services					
	\boxtimes	Yes		No		
	ADDITIONAL DETAIL: Information Systems Appendix and/or Procedure Manual (cite):					
2.	System Documentation					
a.	The State system is fully documented in accordance with (check all that apply):					
	□ □ ⋈ was de	USDA/FNS Computer Secur USDA/FNS ADP Security G Other (specify): TDH Autom eveloped	luide	ta Services standards in place when system		
b.	The St	tate agency's overall ADP sy	stem do	ocumentation includes (check all that apply):		
		a general design user's manual method for updating docume	entation	a detailed design maintenance manual for system changes/modifications		
		AL DETAIL: Information Solure Manual (cite):	ystems .	Appendix		

- A. System Planning and Operation
- 3. Automated Data Processing Services
- a. Indicate below whether the following ADP functions, if applicable, are performed by State agency/local agency staff or are contracted to an outside firm:

	Funct	<u>ion</u>		Perfo	rmed <u>A Staff</u>		racted to Outside (specify co. name):
	Manag Feasib APD of ADP s Custo Custo Printin Backu	entry instrument production gement reports bility study development system hardware opera m software developme m software maintenanc ng forms/FIs up computer facility (specify):	ent				NCR N/A
b.	The S	State agency has a blanket purchase agreement in effect for (check all that y):					
		equipment		servic	es		software
c.		e State agency has methods in place for ensuring that the cost of equipment or vices used by WIC and other programs are equitably prorated among funding rees					
	\boxtimes	Yes			No		
d.	The S	tate agency periodica	ally revi	ews sys	stem costs b	oilling	
		Yes			No		
e.	The S	tate agency acquires	bankin	g servi	ces through	:	
		competitive bids amouse of State-agency cother:	ong in-S	tate and	d out-of-Stat	e banks	

ADDITIONAL DETAIL: Information Systems Appendix and/or Procedure Manual (cite):

- A. System Planning and Operation
- 4. System Security/Data Confidentiality

a.		To ensure that data files and computer programs are protected, the State agency ensures that (check all that apply):					
		there is a separate organizational area/individual to control access to tapes, diskpacks, etc. access to WIC Program data files is controlled through password access or similar control operational personnel are limited to only those jobs for which they are responsible passwords are protected passwords are changed periodically the system access procedures are audited at least once a year procedures are implemented for removing passwords, ID's etc. when personnel leave					
b.	the sy	sure that file storage and backup hardware procedures are sufficient to allow stem to recover and continue processing after fire, flood or similar disaster, the agency ensures that (check all that apply): backup copies of files and program are stored off-site in a secure location backup copies are kept up-to-date there is an agreement with another processing unit with compatible hardware to provide services in an emergency a recent test of the WIC system or mock disaster recovery operation has been conducted at the backup facility other (specify):					

ADDITIONAL DETAIL: Information Systems Appendix and/or Procedure Manual (cite):

- 5. Description of IS changes that occurred in the past year: 1) Maintenance 2) Version 2.6c includes: new participation recording/reporting process; no overlapping FI issuances; issuance can occur anytime during month; subsequent certification can occur anytime in month of certification expiration; revised allowable range of diet deficiency scores and range of HGB and HCT scores; immunizations report changed to include new pneumococcal conjugage vaccine PCV7; extended hours report revised; voiding voucher routine modified; picklists for clerks and providers modified; deceased family members reporting modified; miscellaneous minor changes.
- 6. Description of IS changes planned for the upcoming year. Changes to field and state systems for EBT. Changes to client/participant ethnicity to reflect OMB directive. Development for migration to Windows from DOS for field clinic system.

B. Participant Characteristics Minimum Data Set

B. PARTICIPANT CHARACTERISTICS MINIMUM DATA SET (MDS)

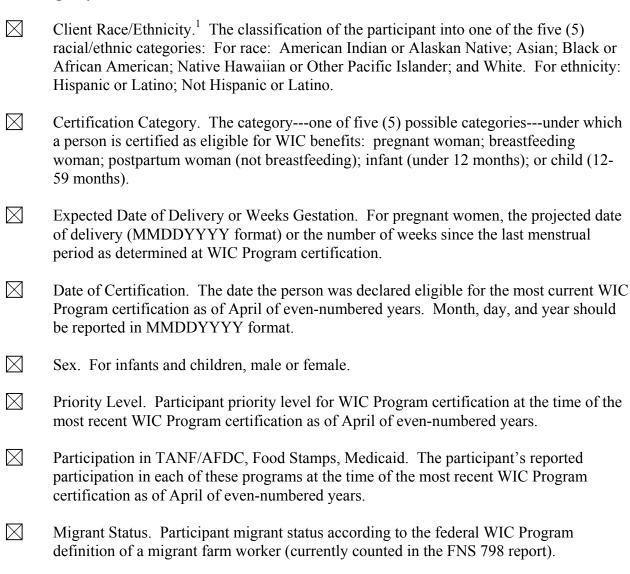

The Participant Characteristics Minimum Data Set (MDS) contains data items which are reported to FNS electronically by State agencies April in even numbered years on all or a State-representative sample of participants. The MDS has required data items which must be collected and reported. The Supplemental Data Set (SDS) is comprised of data items which State agencies have agreed are desirable to collect and report at the national level. Please check MDS or SDS data items the State agency currently collects in its Information Systems and those MDS or SDS data items it is planning to collect within the next two years.

REQUIRED: Participant Characteristics Minimum Data Set

State	Agency IS Collects:
	State Agency ID. A unique number that permits linkage to the WIC State agency where the participant was certified.
	Local Agency ID. A unique number that permits linkage to the local agency where the participant was certified as eligible for WIC benefits.
	Service Site ID. A unique number that permits linkage to the service site where certified. Either local agency ID or service site ID may be reported according to the level the State Agency feels appropriate. At a minimum, State agencies must provide agency names and addresses for each ID provided on their files.
	Case ID. A unique record number for each participant which maintains individual privacy at the national level. (This may not be the case number used in the State agency's IS for the individual.)
	General Instructions: Participant or Case IDs for each participant should continue to maintain individual privacy at the national level. States are requested to generate these IDs in the same manner that was applied for previous years in PC reporting to allow longitudinal tracking of participant characteristics. This task can be accomplished by applying the PC1992 (or later) algorithm to construction of future participant IDs.
	Client Date of Birth: Month, day and year of participant's birth reported in MMDDYYYY format.

B. Participant Characteristics Minimum Data Set

State Agency IS Collects:

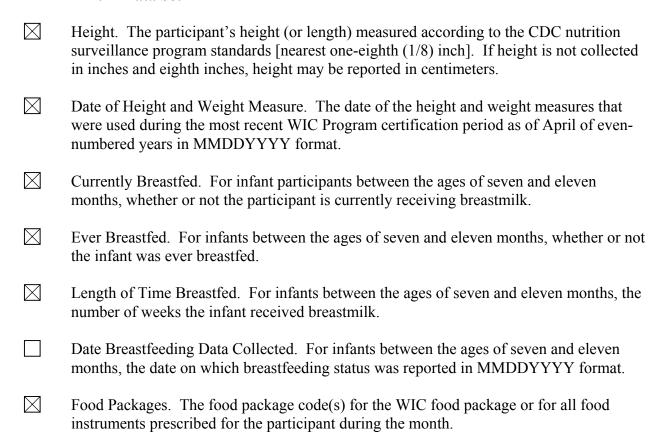

¹ State agencies should begin changing their systems now to reflect the Office of Management and Budget (OMB) Directive for race and ethnicity in order to report this information in PC 2004. (For more information, see OMB Federal Register Notice of October 30, 1997 (62 FR 58782-58990).

B. Participant Characteristics Minimum Data Set

State Agency IS Collects:

	Number in Family/Household or Economic Unit. The number of persons in the family/household or economic unit upon which WIC income eligibility was based.
	A self-declared number in the family/household or economic unit may be reported for participants whose income was not required to be determined as part of the WIC certification process. These participants include adjunctively income-eligible participants (due to TANF/AFDC, Food Stamp Program, or Medicaid participation) and those participants deemed income eligible under optional procedures available to the State Agency in Federal WIC Regulations, Section 246.7(d)(2)(vi-viii) (meanstested programs identified by the State for automatic WIC Program income eligibility, income eligibility of Indian and instream migrant farmworker applicants).
\boxtimes	Family/Household or Economic Unit Income
	For persons for whom income is determined during the certification process, the income amount that was determined to qualify them for the WIC Program during the most recent certification as of April of even-numbered years.
	FNS will convert income expressed in different measures (weekly, monthly, yearly, etc.) to annual amounts.
	For descriptive purposes only, for participants whose income was not required to be determined as part of the WIC Program certification process, the self-reported income at the time of certification. These participants include adjunctively income-eligible participants and those persons deemed eligible under optional procedures available to the State Agency in Federal WIC Regulations, Section 246.7(d)(2)(vi-viii).
	Zero should not be used to indicate income values that are missing or not available. Zero should indicate only an actual value of zero.
	Nutrition Risks Present at Certification. The three highest priority nutrition risks present at the WIC Program certification current in April of even-numbered years.
	Hemoglobin or Hematocrit. That value for the measure of iron status that applies to the WIC Program certification current in April of even-numbered years. It is assumed that the measure was collected within ninety (90) days of the certification date.
	Date of Blood Measurement in MMDDYYYY format. Dates for blood measures older than 90 days are needed for medical interpretation and may be submitted at the end of the file submitted for the Minimum and Supplemental Data Sets.
	Weight. The participant's weight measured according to the CDC nutrition surveillance program standards [nearest one-quarter (1/4) pound]. If weight is not collected in pounds and quarter pounds, weight may be reported in grams.

B. Participant Characteristics Minimum Data Set

B. Participant Characteristics Supplemental Data Set

Supplemental Data Set (OPTIONAL)

State Agency IS:				
Collects	Plans to Collect			
	Date of First WIC Certification: Date the participant was first certified for the WIC Program in MMDDYYYY format. For pregnant, breastfeeding and postpartum women this applies to the current/most recent pregnancy and not to prior pregnancies.			
	Educational Level: For pregnant, breastfeeding and postpartum women, the highest grade or year of school completed. For infants and children, the highest grade or year of school completed by mother or primary caretaker.			
	Number in Family/Household on WIC: The number of people in the participant's family/household receiving WIC benefits.			
\boxtimes	Source of Prenatal Care: For pregnant, breastfeeding and postpartum women, source of care for current/most recent pregnancy.			
	Date When Prenatal Care Began: For pregnant, breastfeeding and postpartum women, the date when prenatal care began for the most recent pregnancy in MMDDYYYY format.			
\boxtimes	☐ Date Previous Pregnancy Ended: For pregnant women, the date previous pregnancy ended in MMDDYYYY format.			
	Total Number of Pregnancies: For pregnant women, the total number of times the woman has been pregnant, including this pregnancy, all live births and any pregnancies resulting in miscarriage, abortion or stillbirth.			
	Total Number of Live Births: For pregnant women, the total number of babies born alive to this woman, including those who may have died shortly after birth.			
	Pre-pregnancy Weight: For pregnant women only, the participant's weight immediately prior to pregnancy. Pre-pregnancy weight may be reported either in pounds and ounces or in grams.			
	Participant's Weight Gain During Pregnancy: For breastfeeding and postpartum women, the participant's weight gain during pregnancy as taken immediately at or prior to delivery. Weight gain during pregnancy may be reported in either pounds and ounces or in grams.			

III. INFORMATION SYSTEM (IS)B. Participant Characteristics Supplemental Data Set

	Birth Weight: For infants and children, the participant's weight at birth measured according to the CDC nutrition surveillance program standards (lbs/ounces). Birth weight may be reported in either pounds or ounces, or in grams.
	Birth Length: For infants and children, the participant's length measured according to the CDC nutrition surveillance program standards (1/8 inches). Birth length may be reported in either inches and eighth inches or in centimeters.
	☐ Date of Last Routine Check-up or Immunization: Month, day, and year of the last routine check-up or immunization for infants and children reported in MMDDYYYY format.
	☐ Length of Time Mother on WIC During Pregnancy: For infant participants, the length of time mother was on WIC during this infant's prenatal period.
The following	items may be reported at the discretion of individual States.
	Erythrocyte Protoporphyrin. That value for the measure of iron status that applies to the WIC Program certification current in April of even-numbered years.
	Participation in the Food Distribution Program on Indian Reservations. The participant's reported participation in this program at the time of the most recent WIC Program certification as of April of even-numbered years.
	☐ Date of Blood Measurement in MMDDYYYY format. Dates for blood measures older than 90 days are needed for medical interpretation and may be submitted at the end of the file submitted for the Minimum and Supplemental Data Sets.

C. WIC Systems Functional Requirements Checklist

C. WIC SYSTEMS FUNCTIONAL REQUIREMENTS CHECKLIST

The following checklists were taken from the WIC Functional Requirements Document (FRED) which was provided as guidance to State agencies on functions they should consider incorporating in their Information Systems. Please check those functions/capabilities which the State agency system currently performs or plans to perform within the next two years.

WIC FUNCTIONAL CHECKLIST

State Agency <u>Performs</u>	State Agency <u>Planned</u>		Function/Capabilities
The system	performs the fo	ollowing	automated core functions:
		1. 2.	Calculates the date certification is due to expire. Assigns the participant a nutritional risk code and assigns a priority level. (CPA confirms the code is correct.)
		2a.	Assigns one risk code.
		2b.	Assigns up to 3 risk codes.
		2c.	Assigns up to 6 risk codes.
		2d.	Assigns more than 6 risk codes.
		3.	Calculates the applicant's household income and flags individuals whose income exceeds program standards.
		3a.	Converts incremental income (weekly, monthly) to an annual figure.
\boxtimes		4.	Associates family members.
$\overline{\boxtimes}$		5.	Statewide data is maintained to facilitate families transferring within the State.
		6.	Transfers certification data to the central computer facility electronically either in real time or batch mode.
		7.	Captures or documents the nutrition education provided each participant as well as the topics covered.
\bowtie		8.	Uses table-driven food packages.
$\overline{\boxtimes}$		8a.	Uses standard pre-defined food packages.
		8b.	Enables easy food package tailoring.
		8c.	Performs edits to prevent over-issuance during food package creation.
		9.	Enables food instruments to be printed when the participant is present for pick-up, i.e., on-demand.

III. INFORMATION SYSTEM (IS)C. WIC Systems Functional Requirements Checklist

State Agency <u>Performs</u>	State Agency <u>Planned</u>		Function/Capabilities
\boxtimes		10.	Captures or documents the name of the programs to which the participant was referred.
		11. 12. 13. 14.	Performs food instrument reconciliation. Produces standard Dual Participation Report. Produces standard Integrity Profile (TIP) Report. Produces standard Rebate Billing Report.
		15. 16. 17. 18.	Produces standard Participation Report. Produces Participant Characteristics Datasets. Captures basic transaction data by vendor. Flags high-risk vendors through peer group analysis
		18a.	of redemption data. Identifies vendors with high average food instrument redemptions.
\boxtimes		18b.	Identifies vendors with a narrow variation in redemptions.
		19.	Assigns a maximum value for each food instrument type.
		19a.	Checks redeemed price against maximum and rejects any food instruments exceeding the maximum amount.
		20. 21. 22. 23.	Captures source of income. Performs automated dietary assessment. Has automated growth charts. Has point of certification data entry, i.e., a personal computer at each "station" within the clinic.
		24.	Allows for ad hoc reporting.
